*or by the linear inch, up to 120

NOTE: width of shelf noted is cabinet width, actual shelf size is 1.5" less

*sliding shelves include slides - special hinges will be needed if used within a cabinet with doors

Product features include:

PVC edge banding – Vogel edge banding is of the highest quality PVC. For all standard laminate finishes, the edge banding will perfectly match all surfaces

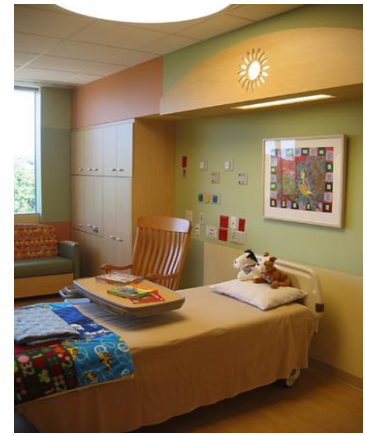

Matching interior surfaces – interiors match the exterior surfaces for a consistent appearance

Hinges – hinges are 120-degree and six-way adjustable to maintain consistent and equal spacing between doors

Full extension glides – drawers have full extension, over-travel glides to allow for full access to the interior of the drawer

File management system – all designated file drawers have an integrated, metal hanging file system to allow for front to back or side to side filing

Locks – single and gang locks are available with keyed alike or keyed random options. Cores are interchangeable as personnel changes

functional furniture... by design!

VOGEL | **CCS**[™]

modernspace - techlinerockford COMMERCIAL CABINETS SYSTEM

What is **VOGEL** | **CCS**?

Vogel Commercial Cabinetry System is a laminate cabinet line, constructed using AWI & AWS standards for both modular and custom casework. Vogel CCS is a product of modernspace - techlinerockford and is manufactured by Vogel Wood Products in Monona, Wisconsin. Our casework is a completely finished unit, providing the benefit of repurposing as needs and functions change. At modernspace, we can help you design your space and will provide you with floor plans and elevations to review, free of charge. Expert design combined with state-of-the-art manufacturing defines our casework's quality and our reputation in the marketplace, and we back this up with a 10 year warranty.
