## POST PARTITION SYSTEMS

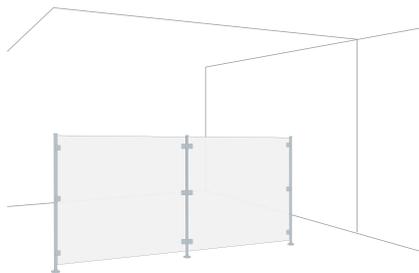

### DESCRIPTION

The Post Partition System uses a variety of our extrusions, connections, clamps and plates. This system allows more flexibility when combining posts, clamps, and spider connectors to suspend and hold Lumicor panels. Create your own furniture, displays, partitions, tradeshow booths or exhibits with this system. Mix and match from the components shown below.

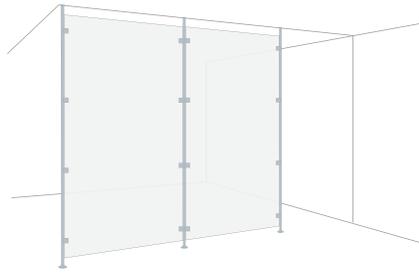

If you're not sure what you need, contact our sales support staff. We can help you with your idea or even review your design, drawing or sketch.
