A&M **concealed brackets** provide additional strength with the vertical arm extending above the horizontal arm, while remaining completely concealed behind the drywall. The bracket can be mounted through the side or the front of the bracket into studs.

Available with 9", 12", 18", 24" & 30" support arms  
Packaged 2 per box  
Load limit range of 1800 lbs to 7960 lbs per pair  
Available in Black, White, Gray & Almond  
(30" Black or White only)

A&M **hybrid brackets** can be installed as either flush mount or a concealed bracket. Concealed installation is done by ripping a 2x4 and mounting it to the stud. The bracket can then be mounted to the recessed, ripped 2x4. Finally, drywall is installed over the T to complete the floating bracket installation.

Available in 3 sizes: 12x12, 18x18 & 24x24  
Packaged 2 per box  
1/8" steel construction with 1/4" mounting holes  
(finishing caps provided for flush mount)  
Load limit range of 400 lbs to 2200 lbs per pair  
Available in Black or White
