

PRINT

MUTO acoustic panel solutions

MUTO Acoustic Print Panels provide soft tactile texture with bold graphic patterns. Whether used for walls, ceilings, dividers or components, soft-patterned sound absorption is the solution for large noisy spaces with hard surfaces. Designing for the size of your space just got easier with 6 standard patterns in 3 different scales.

Make It Cool. Make It Quiet.

TEXTURE

MUTO acoustic panel solutions

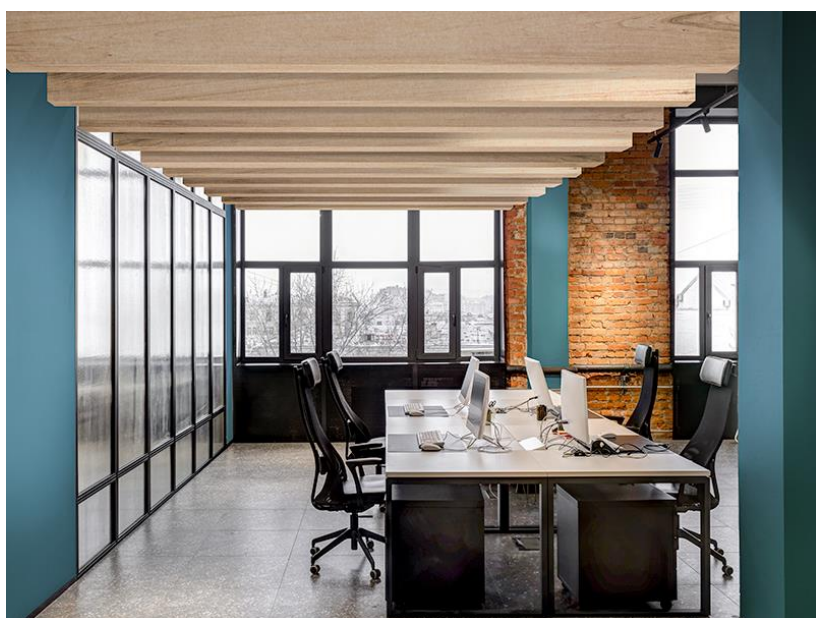

Noisy spaces? MUTO Texture acoustic panels solutions add depth, drama, dimension and diffusion of sound. Whether used for walls, ceilings, dividers or artwork, the texture you have come to know and love is available in acoustic PET felt. MUTO Texture takes your designs to new functional levels. With a variety of colorways to choose from and 1/2" and 1" core thicknesses, MUTO Texture gives you high-impact design in a thoughtfully functional way. And as a result, you can increase concentration and productivity in your space. **Make It Cool. Make It Quiet.**

WALL TILES

MUTO acoustic solutions

Because we can easily cut and fold PET felt, we offer a variety of simple acoustic solutions. MUTO Wall Tiles are your day-two solution for easy to specify and just as easy to install shapes and patterns in high performing MUTO. And, because we make everything we design, you don't have to wait months for product.

Choose from a variety of colors ranging from bold and bright to understated soft hues for perfect sound softening.

BAFFLES

MUTO acoustic ceiling solutions

Who needs acoustic panels? Workspaces have become larger and noisier. As a result, with added noise comes decreased productivity. So, everyone needs sound diffusion. MUTO by Soelberg offers just that. Texture panels, acoustical ceiling baffles, sound softening divider screens and slab and printed acoustic panels made of 100% PET polyester absorb and diffuse sound so that you can focus and concentrate. With various patterns, prints and colorways to choose from, you have the upper hand in stylish sound control.

CLOUD

MUTO acoustic ceiling solutions

Your project forecast: Cloudy with a definite chance of cool.
